

## Turn Your Phones and Web Site Into a Virtual Lead Generating Machine

By Ernest O'Dell - [QuestarTeleCommunications.com](http://QuestarTeleCommunications.com)

*To stay competitive and dominate in today's marketplace, businesses are looking for innovative ways to maximize their investment in their marketing and sales campaigns. They can do that by enhancing their customer relationships through state-of-the-art communications.*

In today's competitive real estate market you need tools to dominate and take control of your sector. Not only do you want to be competitive, but you want to be in control.

To do that, you need to have a dependable system of Unified Communications in place on your web sites and phone systems. With [Instant Sales System](#) and [TeleCenter Real Estate Pro](#), you can have both for less than \$3 a day. That's far less than you would spend on a receptionist if you had to hire one for your front desk.

**When you do this, you will have performed a bit of magic:** you will have turned your web sites and phone system into a massive, and effective lead generation machine.

For most Real Estate agents, just one more home sale per year could bring in an additional \$5,000 - \$10,000 or even more.

**So my question is this:**

Would you invest LESS than the cost of a small print advertisement that appears for 1 DAY...to utilize a marketing system for a YEAR that could bring you that one sale and much more?

A year of service with [Instant Sales System](#) and [TeleCenter Real Estate Pro](#) costs LESS than a single small print advertisement. They are so sure that their service will give you the results you need—and more—that they are even willing to make you a money back guarantee. These two systems were designed by real estate professionals for the RE industry and will help you make sales, or your money back!

There are no contracts or commitments so you can cancel at anytime (but I'm confident you won't :-))

The bottom line is you have nothing to lose and more home sales to gain so why not get started today? They have even waived the setup fee if you [use this link to sign up](#).

It costs LESS than \$3 a day: that's less than you would spend on coffee and donuts or lunch!

No contracts. Subscribe month-to-month. No “nickel and dime” fees for extras: it's all under one package price. Cancel anytime you wish. Check it out today. [TeleCenter Real Estate Pro](#) and the [Instant Sales System For Real Estate Agents](#).
